Subject Index

Hearing

Anatomy and Physiology

Body Inversion and the Acoustic Immitance of the Ear, J. H. Macre, June, 310-320.
Effects of External Ear Canal Pressure of the Middle-Ear Muscle Reflex Threshold, Frederick N. Martin and Sherry Coombes, September, 526-530.
The Electrophysiologic Assessment of Hemispheric Asymmetries during Speech, Jack D. Grabow and Frederick W. Elliott, March, 64-72.
Influence of Stimulus Level and Sleep Stage of the Early Components of the Averaged Electroencephalic Response to Clicks during All-Night Sleep, Maurice I. Mendel, March, 5-17.
Interaural Intensity and Phase Angle Discrimination by Rhesus Monkeys, Jonathan G. Wegener, December, 638-655.
Notes on an Artifact in Measurement of the Acoustic Reflex, Ellen M. Danaher and J. M. Pickett, September, 505-509.

Audiology

Auditory and Visual Contributions to the Perception of Selected English Consonants, Carl A. Binnie, Allen A. Montgomery, and Pamela L. Bodle, December, 619-630.
A Comparison of Individual Units of an Artificial Mastoid, M. A. Weatherton and Anna G. Ferguson, June, 165-168.
Comprehension of Relativized Sentences by Deaf Students, S. P. Quigley, N. L. Smith, and R. B. Wilbur, September, 325-341.
Computer Audiometry, Richard A. Campbell, March, 134-140.
Consonant Confusions Associated with Hearing Loss above 2000 Hz, Annabelle E. Sher and Elmer Owens, December, 669-681.
Effect of Loudspeaker Position on Differences between Earphone and Free-Field Thresholds(Map and MAF), Richard W. Stream and Donald D. Dirks, December, xxx-xxx.
Effects of Angle, Distance, and Illumination on Visual Reception of Speech by Profoundly Deaf Children, Norman P. Erber, March, 99-112.
Effects of Off-Frequency Detection in Brief-Tone Audiometry, Michele Spence and Lawrence L. Feth, December, 576-588.
The Effects of Visual Message-Related Cues, Age, and Hearing Impairment on Speechreading Performance, Rodney O. Pelson and William F. Prather, September, 518-525.
Five Years of Experience with Electric Response Audiometry, Frederica M. Russ and F. Blair Simmons, June, 184-193.
Linguistic Performance of Hard-of Hearing and Normal-Hearing Children, Joseph Wilcox and Henry Tobin, June, 286-293.
Monaural and Binaural Speech Perception through Hearing Aids under Noise and Reverberation with Normal and Hearing-Impaired Listeners, Anna K. Nabelek and J. M. Pickett, December, 724-739.
Notes on an Artifact in Measurement of the Acoustic Reflex, Ellen M. Danaher and J. M. Pickett, September, 505-509.
Performance of Severely Hearing-Impaired Children on a Closed-Response, Auditory

Speech Discrimination Test, Kenneth O. Jones and Gerald A. Studebaker, September, 531-540.
Performance of Young Hearing-Impaired Children on a Test of Basic Concepts, Julia Davis, September, 342-351.
Predicting Audiovisual Consonant Recognition Performance of Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 270-278.
Pure-Tone Octave Masking in Listeners with Sensorineural Hearing Loss, David A. Nelson and Robert C. Bilger, June, 252-269.
Pure-Tone Thresholds and Word-Recognition Abilities of Hearing-Impaired Children, Norman P. Erber, June, 194-202.
A Reply to Dorman and Hoffman (Letter to the Editor), Bruce A. Weber, December, 751-752.
Sentence Intelligibility as a Function of Key Word Selection, Joseph R. Duffy and Thomas G. Giolas, December, 631-637.
Some Motivational Correlates of Lipreading, Thomas G. Giolas, Earl C. Butterfield, and S. Joseph Weaver, March, 18-24.
Threshold Measurement Procedures in Brief-Tone Audiometry, Alan M. Richards and Jan Dunn, September, 446-454.
Variables Influencing Performance on Speech-Sound Discrimination Tests, Arthur H. Schwartz and Ronald Goldman, March, 25-32.

DEAFNESS

Auditory and Visual Contributions to the Perception of Selected English Consonants, Carl A. Binnie, Allen A. Montgomery, and Pamela L. Bodle, December, 619-630.
Categorical Encoding in Short-Term Memory by Deaf and Hearing Children, Harry W. Hoemann, Carol E. Andrews, and Donald V. DeRosa, September, 426-431.
Comprehension of Relativized Sentences by Deaf Students, S. P. Quigley, N. L. Smith, and R. B. Wilbur, September, 325-341.
Durational Aspects of Vowel Production in the Speech of Deaf Children, Randall B. Monsen, September, 386-398.
Effects of Angle, Distance, and Illumination on Visual Reception of Speech by Profoundly Deaf Children, Norman P. Erber, March, 99-112.
The Effects of Visual Message-Related Cues, Age, and Hearing Impairment on Speech-reading Performance, Rodney O. Pelson and William F. Prather, September, 518-525.
Linguistic Performance of Hard-of Hearing and Normal-Hearing Children, Joseph Wilcox and Henry Tobin, June, 286-293.
Monaural and Binaural Speech Perception through Hearing Aids under Noise and Reverberation with Normal and Hearing-Impaired Listeners, Anna K. Nabelek and J. M. Pickett, December, 724-739.
Performance of Young Hearing-Impaired Children on a Test of Basic Concepts, Julia Davis, September, 342-351.
Predicting Audiovisual Consonant Recognition Performance of Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 270-278.
Pure-Tone Thresholds and Word Recognition Abilities of Hearing-Impaired Children, Norman P. Erber, June, 194-202.
Question-Formation in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, December, 699-713.
Some Motivational Correlates of Lipreading, Thomas G. Giolas, Earl C. Butterfield, and S. Josph Weaver, March, 18-24.
Underlying Grammatical Rule Structure in the Deaf, Ann Beth Sarachan-Deily and Russell J. Love, December, 689-698.

PSYCHOACOUSTICS

Consonant Confusions Associated with Hearing Loss above 2000 Hz, Annabelle E. Sher and Elmer Owens, December, 669-681.
Effect of Loudspeaker Position on Differences between Earphone and Free-Field Thresholds (MAP and MAF), Richard W. Stream and Donald D. Dirks, December, 549-568.
Effects of Off-Frequency Detection in Brief-Tone Audiometry, Michele Spence and Lawrence L. Feth, December, 576-588.

The Effects of Three Levels of Auditory Masking in Selected Vocal Characteristics and the Frequency of Disfluency of Adult Stutterers, Martin R. Adams and John Hutchinson, December, 682-688.
Interaural Intensity and Phase Angle Discrimination by Rhesus Monkeys, Jonathan G. Wegener, December, 638-655.
Pure-Tone Octave Masking in Listeners with Sensorineural Hearing Loss, David A. Nelson and Robert C. Bilger, June, 252-269.
Pure-Tone Octave Masking in Normal-Hearing Listeners, David A. Nelson and Robert C. Bilger, June 223-251.
Sentence Intelligibility as a Function of Key Word Selection, Joseph R. Duffy and Thomas G. Giolas, December, 631-637.
Some Effects of Noise on the Speaking Behavior of Stutterers, Edward G. Conture, December, 714-723.
Spectral and Temporal Parameters of Contralateral Signals Altering Temporary Threshold Shift, Raymond S. Karlovich and Terry L. Wiley, March, 41-50.
Threshold Measurement Procedures in Brief-Tone Audiometry, Alan M. Richards and Jan Dunn, September, 446-454.

OTHER

Auditory-Motor Formant Tracking: A Study of Speech Imitation, Raymond D. Kent, June, 203-222.
Averaged Encephalic Response of Aphasics to Linguistic and Nonlinguistic Auditory Stimuli, Herbert J. Greenberg and Pamela J. Metting, March, 113-121.
Body Inversion and the Acoustic Immitance of the Ear, J. H. Macre, June, 310-320.
Children's Discrimination of Rhyme, June D. Knafle, September, 367-372.
Comment on "Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Gary G. Weismer, September, 541.
A Comparison of Individual Units of an Artificial Mastoid, M. A. Weatherton and Anna G. Ferguson, June, 165-168.
Distinctive Phonetic Features as Relevant and Irrelevant Stimulus Dimensions in Speech-Sound Discrimination Learning, Stuart I. Ritterman and Nancy C. Freeman, September, 417-425.
Effects of External Ear Canal Pressure on the Middle-Ear Muscle Reflex Threshold, Frederick N. Martin and Sherry Coombes, September, 526-530.
The Effects of Low-Pass Filtering on the Rate of Learning and Retrieval from Memory of Speech-Like Stimuli, Robert Novak and Julia Davis, June, 279-285.
The Effects of White Noise on the Frequency of Stuttering, Sharon F. Garber and Richard R. Martin, March, 73-79.
Influence of Stimulus Level and Sleep Stage of the Early Components of the Averaged Electroencephalic Response to Clicks during All-Night Sleep, Maurice I. Mendel, March, 5-17.
Perception of the Duration of a Silent Interval in Nonspeech Stimuli: A Test of the Motor Theory of Speech Perception, Judith M. Baumrin, June, 294-309.
Relationship of Articulatory Defects to Speech-Sound Identification, Lorraine M. Monnin and Dorothy A. Huntington, September, 352-366.
The Relationship between Esophageal Speech Proficiency and Selected Measures of Auditory Function, Daniel E. Martin, H. Raymond Hoops, and James C. Shanks, March, 80-85.
A Reply to Weismer's "Comment on Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Ronald A. Cole, September, 542.

Language

APHASIC

Averaged Encephalic Response of Aphasics to Linguistic and Nonlinguistic Auditory Stimuli, March, 113-121.
Effects of a Program Based on the Token Test for Teaching Comprehension Skills to Aphasics, Audrey L. Holland and Judith C. Sonderman, December, 589-598.

LANGUAGE DEVELOPMENT

Communication Development in the First Three Years of Life, Daniel Ling and Agnes H. Ling, March, 146-159.
Comprehension of Relativized Sentences by Deaf Students, S. P. Quigley, N. L. Smith, and R. B. Wilbur, September, 325-341.
Developmental Apraxia of Speech in Children with Defective Articulation, Kathe Allan Yoss and Frederic L. Darley, September, 399-416.
Linguistic Performance of Hard-of Hearing and Normal-Hearing Children, Joseph Wilcox and Henry Tobin, June, 286-293.
Nonspeech Noun Usage Training with Severely and Profoundly Retarded Children, Joseph K. Carrier, Jr., September, 510-517.
Question-Formation in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, December, 699-713.
Underlying Grammatical Rule Structure in the Deaf, Ann Beth Sarachan-Deily and Russell J. Love, December, 689-698.
Use of Prosody and Syntactic Markers in Children's Comprehension of Spoken Sentences, Margaret Lahey, December, 656-668.

OTHER

Categorical Encoding in Short-Term Memory by Deaf and Hearing Children, Harry W. Hoemann, Carol E. Andrews, and Donald V. DeRosa, September, 426-431.
Children's Discrimination of Rhyme, June D. Knafle, September, 367-372.
The Conceptual Reality of Selected Distinctive Features, Conrad LaRiviere, Harris Winitz, James Reeds, and Eve Herriman, March, 122-133.
Dimensions of Individual Difference in the Spoken Syntax of School Children, Wilbur A. Hass and Joseph M. Wepman, September, 455-469.
Distinctive Phonetic Features as Relevant and Irrevelant Stimulus Dimensions in Speech-Sound Discrimination Learning, Stuart I. Ritterman and Nancy C. Freeman, September, 417-425.
Effects of Age and Word Frequency on Object Recognition and Naming in Children, Franklin J. Milianti and Walter L. Cullinan, September, 373-385.
The Effects of Low-Pass Filtering on the Rate of Learning and Retrieval from Memory of Speech-Like Stimuli, Robert Novak and Julia Davis, June, 279-285.
Effects of a Program Based on the Token Test for Teaching Comprehension Skills to Aphasics, Audrey L. Holland and Judith C. Sonderman, December, 589-598.
The Electrophysiologic Assessment of Hemispheric Asymmetries during Speech, Jack D. Grabow and Frederick W. Elliott, March, 64-72.
Perception of the Duration of a Silent Interval in Nonspeech Stimuli: A Test of the Motor Theory of Speech Perception, Judith M. Baumrin, June, 294-309.
Performance of Young Hearing-Impaired Children on a Test of Basic Concepts, Julia Davis, September, 342-351.
Pure-tone Thresholds and Word-Recognition Abilities of Hearing-Impaired Children, Norman P. Erber, June, 194-202.
Relationship of Articulatory Defects to Speech-Sound Identification, Lorraine M. Monnin and Dorothy A. Huntington, September, 352-366.
A Reply to Weismer's "Comment on Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Ronald A. Cole, September, 542.
Sentence Intelligibility as a Function of Key Word Selection, Joseph R. Duffy and Thomas G. Giolas, December, 631-637.

Speech

ANATOMY AND PHYSIOLOGY

EMG Activity within the Pharynx during Speech Production, Fred D. Minifie, James H. Abbs, Arlene Tarlow, and Mitchell Kwaterski, September, 497-504.
The Electrophysiologic Assessment of Hemispheric Asymmetries during Speech, Jack D. Grabow and Frederick W. Elliott, March, 64-72.

Neural and Mechanical Response Time for Speech Production, Ronald Netsell and Billie Daniel, December, 608-618.
Velar Movement and Timing: Evaluation of a Model for Binary Control, Raymond D. Kent, Patrick J. Carney, and Larry R. Severeid, September, 470-488.

ARTICULATION DISORDER

Developmental Apraxia of Speech in Children with Defective Articulation, Kathe Allan Yoss and Frederic L. Darley, September, 399-416.
Dysarthria in Wilson's Disease, William R. Berry, Frederic L. Darley, Arnold E. Aronson, and Norman P. Goldstein, June, 169-183.
A Neuropsychological Investigation of "Functional Disorders of Speech Disorders," Giora R. Frisch and Leonard Handler, September, 432-445.
Variables Influencing Performance on Speech-Sound Discrimination Tests, Arthur H. Schwartz and Ronald Goldman, March, 25-32.

SPEECH AND VOICE SCIENCE

Auditory-Motor Formant Tracking: A Study of Speech Imitation, Raymond D. Kent, June, 203-222.
The Duration of [s] in English Words, Dennis Klatt, March, 51-63.
EMG Activity within the Pharynx during Speech Production, Fred D. Minifie, James H. Abbs, Arlene Tarlow, and Mitchell Kwaterski, September, 497-504.
Neural and Mechanical Response Time for Speech Production, Ronald Netsell and Billie Daniel, December, 608-618.
Perception of the Duration of a Silent Interval in Nonspeech Stimuli: A Test of the Motor Theory of Speech Perception, Judith M. Baumrin, June, 294-309.
Velar Movement and Timing: Evaluation of a Model for Binary Control, Raymond D. Kent, Patrick J. Carney, and Larry R. Severeid, September, 470-488.

STUTTERING

Adjacency and Prediction in School-Age Stutterers, Dinci N. Avari and Oliver Bloodstein, March, 33-40.
On Artificial Fluency (Letter to the Editor), Ehud Yairi, December, 754.
The Effect of a Four-Week Interval on the Consistency of Stuttering, Sabina P. Stefankiewicz and Oliver Bloodstein, March, 141-145.
The Effects of Three Levels of Auditory Masking in Selected Vocal Characteristics and the Frequency of Disfluency of Adult Stutterers, Martin R. Adams and John Hutchinson, December, 682-688.
The Effects of White Noise on the Frequency of Stuttering, Sharon F. Garber and Richard R. Martin, March, 73-79.
Immediate versus Delayed Consequences of Stuttering Responses, J. David Williams and Randall B. Martin, December, 569-575.
The Influence of the Onset of Phonation on the Frequency of Stuttering: A Replication and Reevaluation (Letter to the Editor), Martin R. Adams and Ronald Reis. December, 752-754.
The Influence of Stutterers' Expectancies of Improvement upon Response to Time-Out, Jack E. James and Roger J. Ingham, March, 86-93.
Modification and Control of Rate of Speaking by Stutterers, Roger J. Ingham, Richard R. Martin, and Patricia Kuhl, September, 489-496.
In Reaction to MacDonald and Martin (Letter to the Editor), Oliver Bloodstein, December, 748-750.
Relationships between the Disfluent Speech Behavior of Normal-Speaking Preschool Boys and Their Parents, Ehud Yairi and Susan M. Jennings, March, 94-98.
A Reply to Bloodstein (Letter to the Editor), Richard Martin and James MacDonald, December, 750-751.
A Reply to Yairi (Letter to the Editor), M. E. Wingate, December, 755.
Social Position and Speaking Competence of Stuttering and Normally Fluent Boys, C. Lee Woods, December, 740-747.

Some Effects of Noise on the Speaking Behavior of Stutterers, Edward G. Conture, December, 714-723.

OTHER

Auditory and Visual Contributions to the Perception of Selected English Consonants, Carl A. Binnie, Allen A. Montgomery, and Pamela L. Bodle, December, 619-630.
Communication Development in the First Three Years of Life, Daniel Ling and Agnes H. Ling, March, 146-159.
The Conceptual Reality of Selected Distinctive Features, Conrad LaRiviere, Harris Winitz, James Reeds, and Eve Herriman, March, 122-133.
Dimensions of Individual Difference in the Spoken Syntax of School Children, Wilbur A. Hass and Joseph M. Wepman, September, 455-469.
Distinctive Phonetic Features as Relevant and Irrevelant Stimulus Dimensions in Speech-Sound Discrimination Learning, Stuart I. Ritterman and Nancy C. Freeman, September, 417-425.
Effects of Age and Word Frequency on Object Recognition and Naming in Children, Franklin J. Milianti and Walter L. Cullinan, September, 373-385.
The Influence of the Onset of Phonation on the Frequency of Stuttering: A Replication and Reevaluation (Letter to the Editor), Martin R. Adams and Ronald Reis, December, 752-754.
Modification and Control of Rate of Speaking by Stutterers, Roger J. Ingham, Richard R. Martin, and Patricia Kuhl, September, 489-496.
The Relationship between Esophageal Speech Proficiency and Selected Measures of Auditory Function, Daniel E. Martin, H. Raymond Hoops, and James C. Shanks, March, 80-85.
A Reply to Weismer's "Comment on Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Ronald A. Cole, September, 542.
Social and Vocational Acceptability of Esophageal Speakers Compared to Normal Speakers, Stuart I. Gilmore, December, 599-607.
Social Position and Speaking Competence of Stuttering and Normally Fluent Boys, C. Lee Woods, December, 740-747.

TITLE INDEX

Adjacency and Prediction in School-Age Stutterers, Dinci N. Avari and Oliver Bloodstein, March, 33-40.
On Artificial Fluency (Letter to the Editor), Ehud Yairi, December, 754.
Auditory and Visual Contributions to the Perception of Selected English Consonants, Carl A. Binnie, Allen A. Montgomery, and Pamela L. Bodle, December, 619-630.
Auditory-Motor Formant Tracking: A Study of Speech Imitation, Raymond D. Kent, June, 203-222.
Averaged Encephalic Response of Aphasics to Linguistic and Nonlinguistic Auditory Stimuli, Herbert J. Greenberg and Pamela J. Metting, March, 113-121.
Body Inversion and the Acoustic Immitance of the Ear, J. H. Macre, June, 310-320.
Categorical Encoding in Short-Term Memory by Deaf and Hearing Children, Harry W. Hoemann, Carol E. Andrews, and Donald V. DeRosa, September, 426-431.
Children's Discrimination of Rhyme, June D. Knafle, September, 367-372.
Comment on "Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Gary G. Weismer, September, 541.
Communication Development in the First Three Years of Life, Daniel Ling and Agnes H. Ling, March, 146-159.
A Comparison of Individual Units of an Artificial Mastoid, M. A. Weatherton and Anna G. Ferguson, June, 165-168.
Comprehension of Relativized Sentences by Deaf Students, S. P. Quigley, N. L. Smith, and R. B. Wilbur, September, 325-341.
Computer Audiometry, Richard A. Campbell, March, 134-140.
The Conceptual Reality of Selected Distinctive Features, Conrad LaRiviere, Harris Winitz, James Reeds, and Eve Herriman, March, 122-133.
Consonant Confusions Associated with Hearing Loss above 2000 Hz, Annabelle E. Sher and Elmer Owens, December, 669-681.

Developmental Apraxia of Speech in Children with Defective Articulation, Kathe Allan Yoss and Frederic L. Darley, September, 399-416.
Dimensions of Individual Difference in the Spoken Syntax of School Children, Wilbur A. Hass and Joseph M. Wepman, September, 455-469.
Distinctive Phonetic Features as Relevant and Irrevelant Stimulus Dimensions in Speech-Sound Discrimination Learning, Stuart I. Ritterman and Nancy C. Freeman, September, 417-425.
The Duration of [s] in English Words, Dennis Klatt, March, 51-63.
Durational Aspects of Vowel Production in the Speech of Deaf Children, Randall B. Monsen, September, 386-398.
Dysarthria in Wilson's Disease, William R. Berry, Frederic L. Darley, Arnold E. Aronson, and Norman P. Goldstein, June, 169-183.
EMG Activity within the Pharynx during Speech Production, Fred D. Minifie, James H. Abbs, Arlene Tarlow, and Mitchell Kwaterski, September, 497-504.
The Effect of a Four-Week Interval on the Consistency of Stuttering, Sabina P. Stefankiewicz and Oliver Bloodstein, March, 141-145.
Effect of Loudspeaker Position on Differences between Earphone and Free-Field Thresholds (MAP and MAF), Richard W. Stream and Donald D. Dirks, December, 549-568.
Effects of Age and Word Frequency on Object Recognition and Naming in Children, Franklin J. Milianti and Walter L. Cullinan, September, 373-385.
Effects of Angle, Distance, and Illumination on Visual Reception of Speech by Profoundly Deaf Children, Norman P. Erber, March, 99-112.
Effects of External Ear Canal Pressure on the Middle-Ear Muscle Reflex Threshold, Frederick N. Martin and Sherry Coombes, September, 526-530.
The Effects of Low-Pass Filtering on the Rate of Learning and Retrieval from Memory of Speech-Like Stimuli, Robert Novak and Julia Davis, June, 279-285.
Effects of Off-Frequency Detection in Brief-Tone Audiometry, Michele Spence and Lawrence L. Feth, December, 576-588.
Effects of a Program Based on the Token Test for Teaching Comprehension Skills to Aphasics, Audrey L. Holland and Judith C. Sonderman, December, 589-598.
The Effects of Three Levels of Auditory Masking in Selected Vocal Characteristics and the Frequency of Disfluency of Adult Stutterers, Martin R. Adams and John Hutchinson, December, 682-688.
The Effects of Visual Message-Related Cues, Age, and Hearing Impairment on Speechreading Performance, Rodney O. Pelson and William F. Prather, September, 518-525.
The Effects of White Noise on the Frequency of Stuttering, Sharon F. Garber and Richard R. Martin, March, 73-79.
The Electrophysiologic Assessment of Hemispheric Asymmetries during Speech, Jack D. Grabow and Frederick W. Elliott, March, 64-72.
Five Years of Experience with Electric Response Audiometry, Frederica M. Russ and F. Blair Simmons, June, 184-193.
Immediate versus Delayed Consequences of Stuttering Responses, J. David Williams and Randall B. Martin, December, 569-575.
The Influence of the Onset of Phonation on the Frequency of Stuttering: A Replication and Reevaluation (Letter to the Editor), Martin R. Adams and Ronald Reis, December, 752-754.
Influence of Stimulus Level and Sleep Stage of the Early Components of the Averaged Electroencephalic Response to Clicks during All-Night Sleep, Maurice I. Mendel, March, 5-17.
The Influence of Stutterers' Expectancies of Improvement upon Response to Time-Out, Jack E. James and Roger J. Ingham, March, 86-93.
Interaural Intensity and Phase Angle Discrimination by Rhesus Monkeys, Jonathan G. Wegener, December, 638-655.
Linguistic Performance of Hard-of Hearing and Normal-Hearing Children, Joseph Wilcox and Henry Tobin, June, 286-293.
Modification and Control of Rate of Speaking by Stutterers, Roger J. Ingham, Richard R. Martin, and Patricia Kuhl, September, 489-496.
Monaural and Binaural Speech Perception through Hearing Aids under Noise and Reverberation with Normal and Hearing-Impaired Listeners, Anna K. Nabelek and J. M. Pickett, December, 724-739.

Neural and Mechanical Response Time for Speech Production, Ronald Netsell and Billie Daniel, December, 608-618.
A Neuropsychological Investigation of "Functional Disorders of Speech Disorders," Giora R. Frisch and Leonard Handler, September, 432-445.
Nonspeech Noun Usage Training with Severely and Profoundly Retarded Children, Joseph K. Carrier, Jr., September, 510-517.
Notes on an Artifact in Measurement of the Acoustic Reflex, Ellen M. Danaher and J. M. Pickett, September, 505-509.
Perception of the Duration of a Silent Interval in Nonspeech Stimuli: A Test of the Motor Theory of Speech Perception, Judith M. Baumrin, June, 294-309.
The Performance of Severely Hearing-Impaired Children on a Closed-Response, Auditory Speech Discrimination Test, Kenneth O. Jones and Gerald A. Studebaker, September, 531-540.
Performance of Young Hearing-Impaired Children on a Test of Basic Concepts, Julia Davis, September, 342-351.
Predicting Audiovisual Consonant Recognition Performance of Hearing-Impaired Adults, Brian E. Walden, Robert A. Prosek, and Don W. Worthington, June, 270-278.
Pure-Tone Octave Masking in Listeners with Sensorineural Hearing Loss, David A. Nelson and Robert C. Bilger, June, 252-269.
Pure-Tone Octave Masking in Normal-Hearing Listeners, David A. Nelson and Robert C. Bilger, June, 223-251.
Pure-Tone Thresholds and Word-Recognition Abilities of Hearing-Impaired Children, Norman P. Erber, June, 194-202.
Question-Formation in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, December, 699-713.
In Reaction to MacDonald and Martin (Letter to the Editor), Oliver Bloodstein, December, 748-750.
Relationship of Articulatory Defects to Speech-Sound Identification, Lorraine M. Monnin and Dorothy A. Huntington, September, 352-366.
The Relationship between Esophageal Speech Proficiency and Selected Measures of Auditory Function, Daniel E. Martin, H. Raymond Hoops, and James C. Shanks, March, 80-85.
Relationships between the Disfluent Speech Behavior of Normal-Speaking Preschool Boys and Their Parents, Ehud Yairi and Susan M. Jennings, March, 94-98.
A Reply to Bloodstein (Letter to the Editor), Richard Martin and James MacDonald, December, 750.
A Reply to Dorman and Hoffman (Letter to the Editor), Bruce A. Weber, December, 751-752.
A Reply to Weismer's "Comment on Perceiving Syllables and Remembering Phonemes" (Letter to the Editor), Ronald A. Cole, September, 542.
A Reply to Yairi (Letter to the Editor), M. E. Wingate, December, 755.
Sentence Intelligibility as a Function of Key Word Selection, Joseph R. Duffy and Thomas G. Giolas, December, 631-637.
Social and Vocational Acceptability of Esophageal Speakers Compared to Normal Speakers, Stuart I. Gilmore, December, 599-607.
Social Position and Speaking Competence of Stuttering and Normally Fluent Boys, C. Lee Woods, December, 740-747.
Some Effects of Noise on the Speaking Behavior of Stutterers, Edward G. Conture, December, 714-723.
Some Motivational Correlates of Lipreading, Thomas G. Giolas, Earl C. Butterfield, and S. Joseph Weaver, March, 18-24.
Spectral and Temporal Parameters of Contralateral Signals Altering Temporary Threshold Shift, Raymond S. Karlovich and Terry L. Wiley, March, 41-50.
Threshold Measurement Procedures in Brief-Tone Audiometry, Alan M. Richards and Jan Dunn, September, 446-454.
Underlying Grammatical Rule Structure in the Deaf, Ann Beth Sarachan-Deily and Russell J. Love, December, 689-698.
Use of Prosody and Syntactic Markers in Children's Comprehension of Spoken Sentences, Margaret Lahey, December, 656-668.

Variables Influencing Performance on Speech-Sound Discrimination Tests, Arthur H. Schwartz and Ronald Goldman, March, 25-32.

Velar Movement and Timing: Evaluation of a Model for Binary Control, Raymond D. Kent, Patrick J. Carney, and Larry R. Severeid, September, 470-488.
